Streets are being opened and six masts with electric lights will be erected immediately. The division of the lots takes place in six months, at which time the purchasers meet together and choose a committee of three disinterested citizens and a recording secretary, the names of the purchasers being placed promiscuously in a box. As each name is withdrawn by one of the committee the purchaser, or his or her representative, immediately makes a choice of one lot on the large map exhibited, and that choice, being recorded by the secretary of the meeting, is unchangeable, and will receive a deed for the same direct from Mr. Childs. This is on the plan of the best homestead associations of other cities.

The Times.

Office—Temple, Main and New High.

For California, fair weather; North Pacific Coast, partly cloudy weather, local rains.

THE MORNING'S NEWS.

At Oram during 48 hours ended yesterday evening, there were eleven deaths from cholera.

The cholera epidemic is considered ended in Paris. Publication of bulletins has been abandoned.

Earthquake shocks were felt at Concord, N. H., on Sunday. They were also felt in the vicinity of Boston.

A six days go-as-you-please walking match was begun in London, England, yesterday, Rowell being among the competitors.

The Chicago and Northwestern Railroad has declared a dividend of 2 per cent. on preferred stock, and 3½ per cent. on common, payable December 16th.

The Grand Opera House at St. Louis was burned yesterday. Loss, $150,000; insurance, $50,000. The manager lost his personal wardrobe and library, valued at $7,000.

The Secretary of Washington Territory has received corrected returns from all but four counties on Delegate to Congress from which it appears that Voorhees (D.) will have a majority of 137.

In the English House of Commons yesterday Mr. Cullan, a Liberal, derided the ruling of Judge Manisby, in the Adams-Coleridge libel suit, and said the functions of jurymen were made a mock, a delusion and a snare.

The Republican City Ticket.

The City Republican Convention, held last evening, put a ticket in the field which ought to be elected. The full proceedings appear on the local page. The names put in nomination for the various offices are familiar to the people of Los Angeles, and the owners, in most cases, need little in the way of introduction or commendation from the TIMES. The nominee for Mayor, Mr. E. F. Spence, is one of the very best known of our citizens, having spent a large part of his manhood here. He is closely identified with the business life and history of Los Angeles, largely interested in her, and well acquainted with her municipal needs. He has served in the Council, and as Mayor ought to be able to do valuable service to the people. Supported by a good Council, such as the next body will be if the Republican nominees are elected (and they can be), Mr. Spence will have an opportunity to make his mark and give the city of his choice the benefit of his long and varied business experience and intimate knowledge of what she most needs at this important stage, and we may say critical stage, in her splendid career of advancement. Mr. Spence ought to be elected "by a large majority."

The other candidates—well, it is their duty to "git thar" without fail.

LUCIFER beats Sumner 117 votes.

MADAMOISELLE NEVADA, the protegé of Mrs. John W. Mackay, made her first appearances in opera in New York last night, and scored a success. As M'lle Nevada is a product of "our glorious climate," we wish her luck.

CLEVELAND ran heavily behind in New York county. The following are its figures:

Cleveland	133,307
Democratic Assemblymen	147,701
Democratic Aldermen	157,472

On a largely increased registration Cleveland's plurality in that county was less than Hancock's, and he ran 24,000 behind his party vote.

THE need of a general overturning in the city government is obvious and generally admitted. Cast your eagle eye over the Republican ticket and then, on the first of December, go religiously to the polls and insert therein a ballot for the same.

THE Washington Star of Nov. 18 says: "Mrs. Julia M. Quantrille Walker, who died in this city on Saturday and whose funeral took place to-day, was the young girl who raised the Union flag at Frederick, Md., which led to the famous Barbara Frietchie incident in the civil war."

"STAND up and be counted for God and home," cried Mr. St. John in his stump speeches before the election. "I never had a doubt of the result," says the complacent St. John since the election; "Cleveland is elected by the people's votes and cannot be counted out." So it seems that St. John was shouting for "God and home" when he only meant Cleveland and Hendricks. He is a battered saint, in the opinion of the Kansas City Journal.

THE New York Tribune remarks: "It is truly painful to see everything bad in the country rejoicing over the alleged election of Mr. Cleveland. Here is a consignment of Mormons which landed at Castle Gardens yesterday. Having been afloat on election day they had heard no news, and felt sure that Mr. Blaine had been chosen. When they heard that this might not be the case, they rejoiced with exceeding great joy. Rum, Mormonism and Rebellion—at least that phrase is correct."

THERE were causes enough for Mr. Blaine's defeat, albeit some of them were most exasperating causes. For instance, over 20,000 New York Republicans voted for St. John; 5,000 or more Republicans voted for Butler; and the stormy day in the interior kept 20,000 Republicans from the polls, who, over-confident in the success of the Republican ticket, did not take the trouble to travel through mud and storm to vote.

THE Marysville Appeal and the Sacramento Record-Union are both of opinion that "there is no such necessity for legislation as to warrant a full session of the Legislature." They favor a short session and hold that "if the Republican legislators follow in the wake of the Democrats, dole out a long session and accomplish nothing, they will be discharged at the next election." This is about the dimensions of the proposition, and these things are worth thinking of. Our people should aim to stave off their discharge as long as possible.

THE Sacramento Record-Union remarks that "Mr. Blaine's vigorous speech gives emphasis to the position the Record-Union took immediately after the election—that the mistake of the campaign was the ignoring of the threat of the solid South. In short, what was needed was an awakening of the people to a full realization of the fact that one-half of the country has representation upon the basis of a voting population, more than one-half of which is not free to exercise the voter's prerogative." There is coming to be a general concurrence among Republicans throughout the country that the rectification of this great wrong is the work which the party will have before it in the campaign of 1888.

NEWARK REJOICES.

Hilarious Jerseymen do Honor to Hendricks.

HE MAKES A SPEECH IN RESPONSE.

His Thanks to the Sullivan Club—Mutual Love for Ireland and a Glowing Tribute to Irishmen.

Associated Press Dispatches to The Times.

NEWARK, N. J., Nov. 24.—The Democrats held a great meeting of rejoicing to-night. After the parade Vice-President Hendricks said: "It is impossible for me to address you at length. I thank you, men of New Jersey, for the honor you have done Grover Cleveland and myself at the recent election. [Cheers.] I know no honor possible to be enjoyed by any man greater than that which is expressed in the confidence of the people, and there is no mode of expressing that confidence higher than the ballot in the box. [Cheers.] On the fourth day of this month New Jersey did express her judgment that we should be the chief officers of this country. That judgment stands, and will stand forever, because enough of the other States have concurred in that judgment to make it the judgment of the Nation under the Constitution of the United States. For the part that you have borne in that grave and responsible work I express to you my sincere thanks and regards. To the Sullivan Club of the city of Newark (a part of the serenading body) I desire to express my thanks in very special terms. They have done to one who is dearer to me than my own life honor to-night. It was impossible that she should be here to receive this honor at their hands. They desire to express to her their respect and their regard for this banner, the beautiful banner that excites our mutual love for Ireland. [Cheers.] Upon that banner was written by herself "Justice to Ireland," a sentiment that all men of all nations and all kindreds of the earth ought to respect and honor. "Justice to Ireland," that has given to England her bravest soldiers. Ireland that has sent to this country of ours men who have fought in all its wars, men who have helped to develop this whole land, men who have illustrated the virtues of civilization and christianity."

WASHINGTON TERRITORY.

Annual Report of Its Governor to the Secretary of the Interior.

WASHINGTON, Nov. 24.—Watson Squire, Governor of Washington Territory, in his annual report says: "The manufacturing industries of the Territory have attained a highly gratifying degree of improvement, that of lumber taking the lead. In many cases Indians are engaged in prosperously cultivating the soil, and it is believed the system of allotting a suitable quantity of land to them in severalty can and ought to be encouraged. If they could be induced to concentrate and altogether abandon certain reservations it would conduce much to the development of the Territory by the settlement and cultivation of large tracts of valuable land now unproductive." Touching the Territorial law conferring upon women the right to vote, the Governor says: "Although many of our citizens are disposed to question the wisdom of this law, especially when attended with the requirement is that women should serve as jurors, it meets with the approval of a large majority of people, and the women of the Territory, are, for the most part, strongly desirous that the enactment be retained upon our statute books. Thus far it seems attended with no important results unfavorable to the welfare of the people of the Territory." The report states that the value of assessed property of that Territory is $50,513,852, with one county to be heard from. The Territory is entirely out of debt, and July 1st, 1884, had a balance of $47,901 in the treasury. The population of the Territory is estimated at 150,000, and the Governor in conclusion presents a number of reasons to support the claim of Washington Territory for admission into the Union as a State.

English Grain Market.

LONDON, Nov. 24.—The Mark Lane Express in its weekly review of the corn trade says: "Young wheat could scarcely look stronger, and there is not an autumn sown crop of any kind which has not an exceptionally good average appearance. Wheat declined 1S per quarter in London on Monday, and prices have been weakening ever since. Sales of English wheat the past week 68,663 quarters at 31s. 7d. per quarter, against 80,102 quarters at 40s. 5d. per quarter for the corresponding week last year. Flour declined 2s. under a pressure from London bakers who reduced the price of bread. Foreign wheat in London is gradually sinking toward an unfathomable bottom, and how far yet before the bottom will be reached is a matter of pure speculation. Maize firm, owing to scarcity. Oats 6d. per quarter lower. No cargoes off coast, prevailing East and keeping off expected arrivals. One cargo sold and one withdrawn, leaving the market bare. For cargoes forward there is but little demand.

A Chinaman Murdered in San Francisco.

SAN FRANCISCO, Nov. 24.—This afternoon a row between different factions of Chinese occurred in the Chinese quarter. Pistols and knives were freely used. The noise of the fusilade brought policemen to the scene, who on their arrival found one Chinaman in a dying condition. While being removed to the receiving hospital for treatment he died and the corpse was taken to the morgue instead. Shortly after two wounded Chinese were brought to the receiving hospital. One was stabbed in the back and the other shot in the cheek. On the former was found a revolver from which but one bullet was discharged. The men pretended not to know that one of their countrymen had been killed or who he was. Nothing could be learned from them concerning the trouble which led to the shooting and cutting affray.

A Matrimonial Agent.

NEW YORK, Nov. 24.—F. G. Green, of St. Johns, Apache county, A. T., has arrived at Philadelphia. He said: "There is a scarcity of young women in Apache county, and a lot of respectable young men called a meeting at St. Johns and deputies were selected to come East to secure wives for subscribers to the association. I have photographs of the members, thirty-one in all, and I also have letters of recommendation from the township officers. All I want now is to secure the young ladies. Their expenses to Arizona will be paid by the association immediately, or if they prefer they will be given the addresses of members whom they prefer and correspondence can be opened."

Railroad Accident.

MOBILE, Ala., Nov. 20.—The westbound passenger train on the Mobile and Montgomery road, which left here at one o'clock this morning, ran into a southbound freight train at a siding at Perdido, the switch being open. The engines telescoped and some turpentine on the station platform caught fire. A rosin warehouse in the vicinity was partially destroyed, also the two engines and the baggage car, mail and smoking car of the passenger train. Engineer James Duff of the passenger train was killed and his body burned beyond recognition. Morgan Ashe, engineer of the freight train, had an arm broken. Walter Dawson, fireman of the freight, had a leg crushed and it was amputated later. Three other railroad men were injured slightly.

England's Position on the Niger River Question.

PARIS, Nov. 2.—Figaro states that England's decision not to permit the Congo Conference to establish an International Commission for the regulation of the Niger was intimated at the first session of the conference. Sir Edward Mallet, British delegate, declared in explanation of this that the commerce of the Niger was exclusively British and the tribes on the Niger delta were under British protection. England, however, he asserted, would pledge herself to clear the river, regulate navigation, and throw the river open to the world.

Forced to Resign.

CHICAGO, Nov. 24.—The Daily News' Winnipeg special says: The pressure brought to bear on the Government by public indignation at the flogging of the prisoner McCormick at the instigation of Attorney-General Miller is so great that the Government has been compelled to demand his resignation. Miller will leave the Government in about a week.

FORT SMITH, Ark., Nov. 24.—News has been received of the killing of John Wood by Stephen Fletcher (both colored) at Round Mountain in the Choctaw Nation. Wood eloped with Fletcher's wife. Fletcher pursued, overtook them, blew out Wood's brains, and returned home with the woman.

DISGUSTED SPORTS.

The Funeral of Glove Fights in New York.

Associated Press Dispatches to The Times.

NEW YORK, Nov. 24.—The much-talked of boxing match between Charles Mitchell and Jack Burke, who were to have fought eight rounds under Marquis of Queensberry rules at Madison Square Garden to-night, turned out a fiasco. About 500 spectators and fifty reporters went to see the great exhibition at "sparring for points." Among the 500 were the police captains of the various precincts of the city, who had been especially ordered to be present. One sport remarked: "This is the funeral of glove fights in New York." At 10 o'clock Mitchell and Burke appeared upon the stage, accompanied by Billy Madden. Bob Smith announced that "In consequence of the interest taken in the match by the District Attorney and the police, and from a desire that all present should be able to get home in time to drown their sorrows, Messrs. Mitchell and Burke would give a quarter of an hour exhibition of sparring in three rounds, according to the latest rules of the Peace Society." The men were dressed in plain white tights and drawers. When "time" was called they advanced towards each other, offered the right hand of good-fellowship and then drew back to admire each other. They "chucked" each other under the chin as I smoothed one another's cheeks in a really affectionate way once or twice. When the first three minutes were over they gracefully bowed and retired to their corner. The second and third rounds were similar. Once Mitchell pushed his cheek against Burke's glove, for which Burke apologized. Then Mitchell patted his opponent's right cheek, and in scriptural fashion Burke turned the left to him. Another time, when Burke got close enough to Mitchell the latter put his glove as far as he could in the former's mouth. So it went on until the third round was over. A more disgusted crowd than that which left the Garden has rarely been seen in this or any other city. There was no decision as to who was winner, but that would have been of no use, as there was nothing to divide between the

KNIGHTS OF HONOR.

The Late Supreme Treasurer Charged With Being a Defaulter.

LOUISVILLE, Ky., Nov. 24.—A sensation was created here to-day by a publication in the Boston Knights of Honor Observer charging that Robert J. Breckenridge, late Supreme Treasurer of the Knights of Honor, is a defaulter to the amount of $160,000. Incidentally the same paper refers to Breckenridge as a "Rival of Captain Kidd." In addition to its local report, the Observer editorially arraigns Breckenridge as being accountable for large sums of money "to the widows and orphans of departed brethren." The Observer is edited by a Mr. Cummings, who is on very intimate terms with General Sloat, Supreme Director of the Knights of Honor, and J. W. Branch, who succeeded Breckenridge, as Supreme Treasurer. Breckenridge is in this city, and denies the charge, pronouncing the whole thing a tissue of falsehoods. Said he: "I have received money which has not been paid out; I was ordered by the Chancery Court to pay no more benefits after October 18 last, and I obeyed the order. For this reason there is now a considerable amount in the People's Bank to the credit of the Knights of Honor." The general opinion among members of the Knights of Honor is that the charge is not true. Colonel Breckenridge will sue for libel.

AFFLICTED WITH DEVILS.

How an Alleged Medium Attempted to Cure a Sick Woman.

CLEVELAND, Nov. 24.—A Herald special from Gambier reports that Mrs. Walker, living two miles from town, lay ill and being a Spiritualist refused medical aid, but was persuaded to submit to treatment by a man named Burrows, who said he was a medium under the influence of the spirit of an Indian chief. Burrows said the woman was afflicted by devils which he proceeded to drive out by beating her about the head and shoulders and otherwise maltreating her, in consequence of which she died last Wednesday. The house where Mrs. Welker died was locked and nobody permitted to enter it until Saturday, when her cousin, Dr. Welker, forced his way in and found the corpse stretched on the bed in a state of nudity. Unless Burrows proves to be insane, he will be tried for manslaughter.

Gentiles Refusing to Pay School Taxes.

SALT LAKE, Utah, Nov. 24.—Suit was brought to-day by Gentile taxpayers to restrain the Trustees from collecting a special tax to build an alleged schoolbuilding which they aver will be in effect a Mormon meeting house, and they contend that the Mormons run the schools in the interest of the Mormon Church, the Trustees being invariably Mormons wherever it is possible, and that it is almost without exception that teachers are required to be Mormons and to advance the interests of the church in their position; that in consequence their children and all Gentile children are deprived of all use or benefit of the schools and they are not bound to supply money to carry it on. The Trustees were served with papers this evening. This is the first test ever made in Court.

M'lle Nevada Scores a Success.

NEW YORK, Nov. 24.—M'lle Nevada made her first appearance here to-night in the role of "Amina" in *Somnambula*. The enthusiasm increased as the opera proceeded. Nevada scored an undoubted success. Her voice is remarkable for sweetness and flexibility. Her execution was noteworthy and also her winsome simplicity and naturalness of acting. The floral offerings were many and magnificent. M'lle Nevada was at times completely overcome with the warmth of her reception. She kissed the small American flag which surrounded a bouquet of flowers and sang with exquisite sweetness "Home, Sweet Home."

Suit Against the Union Pacific.

WASHINGTON, Nov. 24.—The case of the Government vs. The Union Pacific Railroad Company, in which the Government claims a certain percentage of the net earnings and the railroad company claims payment for transportation, came up in the Court of Claims to-day. Only preliminary matters were disposed of, and the trial will begin regularly to-morrow. If all the Government claims are allowed they will amount to $1,700,000, but against this total the railroad company claims an offset aggregating $1,500,000.

Death of a Well-Known Capitalist.

SAN FRANCISCO, Nov. 24.—J. Frank, a well-known capitalist, died yesterday afternoon. He has been failing in health for a considerable number of years, so that his death was not unexpected. He came to this coast in the spring of 1850. In 1856 he established the well-known house of J. Frank & Co. He leaves seven sons and two daughters.

Rolling Mill Resumes Operations.

PITTSBURG, Pa., Nov. 24.—The Franks-town Rolling Mill, which has been idle four months, resumed operations to-day, and it is thought will be kept running all winter. It is expected the new pipe mill, recently built by the same firm, will start up on Wednesday, giving employment to 600 men.

Jay's Verdict for the Government.

CINCINNATI, Nov. 24.—A verdict was rendered in the United States Court to-day in favor of the United States against David H. Bailey for $39,000, fees collected by Bailey as Consul at Hong Kong, China, and not accounted for. Bailey made no defense.

Murderous Fanatics.

COLUMBUS, O., Nov. 24.—A large crowd of the anti-liquor element of Bladensburg (Knox county) made an attack Saturday night on Chapin's saloon. The proprietor was struck on the head by a stone and his skull fractured. All the liquor was thrown in the streets, and when physicians arrived Chapin was dead.

ENLARGED SHEET.

TUESDAY, NOVEMBER 25, 1884.

Trade with Lands to the Southward.

The members of the Commission which has been appointed by the President, under authority of Congress, for the purpose of investigating and reporting upon the trade relations of the United States with countries lying to the southward, are to pass through Los Angeles to-day on their way from San Francisco to the city of Mexico.

It is unfortunate that the Commission cannot find time to stop over in Los Angeles for a day, take a look at the city and confer with her merchants and business men, who would, we are sure, be glad to meet the members individually, and from them learn something of the details of their interesting and important mission. The Commission has already held sessions in New York, Philadelphia, Baltimore and other Eastern cities, and has just come from the commercial metropolis of the Pacific, whose foreign trade is the third in volume among the cities of the Union.

Los Angeles has a deep and direct interest in the expansion of American trade to the southward, and will watch the movements of this important body with intelligent solicitude. Our trade relations with Australia and Spanish America are not what they should be in extent, and not what it is possible to make them through an enlightened commercial policy. There is no good reason why we should consent to see Great Britain steadily outstripping us in that regard. In the expanded commerce which we hope to see built up between the United States and those countries before many more years shall have rolled around, the Pacific Coast is perhaps more interested than any other portion of the country of like extent and population.

The Alta California, in dwelling upon the importance of this subject, says: "For 1883, out of total exports from San Francisco of nearly $42,000,000, the exports to South American ports amounted to only $300,000. Our export trade with Mexico by water amounted to about $3,000,000, and with Central America to something less than a million. From Central America our imports exceed our exports, but our Mexican imports are small, and our South American insignificant."

The same paper remarks that the trade of the United States with the Spanish American countries presents some odd contrasts, the exports in some cases exceeding the imports, while in other instances, the imports are enormously in excess. It makes the following comparison of the figures for the fiscal year 1883, which will set forth this fact very clearly:

EXPORTS EXCEEDING IMPORTS.

	Imports into U. S.	Exports from U. S.	Excess of exports.
Mexico	$9,016,488	$13,750,289	$4,733,801

Brazil and Cuba produce two great staples, coffee and sugar, of which the United States is a consumer, and it will not be possible for a great many years yet to make our trade with those countries show a favorable balance, though Great Britain has accomplished the task. In the same year (1880) that the United States exported merchandise worth $9,300,000 to Brazil, Great Britain's exports to that country were $33,607,000, as against imports of but $25,583,000. In that year the total exports of Great Britain to South American countries were $79,358,000, and the exports of the United States were only $35,220,000.

The eminent publicist, Edward Atkinson, in a letter which is incorporated in the recent annual report of the Chief of the Bureau of Statistics, states some of the conditions of the South American trade as follows:

We import from China, Africa and South America tea, coffee, sugar, hides, etc., in greater amount than we sell manufactured goods to them.

Great Britain works up or converts our raw material into manufactured goods, and sends those goods to China, Africa and South America in payment for the raw material or the tea, coffee and sugar we have purchased.

Why should this three-cornered traffic continue? Why do we not convert our own raw material into manufactured goods and exchange directly with the non-machine-using nations of whose products we are large purchasers?

Many of the goods of these several classes are made in the United States of better quality, sometimes at a less cost and sometimes at a slightly greater cost than in Great Britain. Why, then, is not this cash, which is at our credit in London, applied directly to the purchase of American goods rather than of British goods?

For a long time this question puzzled me; I could not solve it until I had studied the conditions of of commerce in Great Britain on the spot.

My conclusion was that while quality and prices enter measurably into the conditions which control that exchange of products which constitutes commerce, yet modern science and modern instrumentalities for production have brought the quality and price of manufactured goods—such as textiles, hardware and the like so nearly to the same standard that commerce is no longer controlled in any great measure by either quality or price in respect to such manufactured goods. But such difference in quality and price as exist, being very small elements, are more than counterbalanced by facilities in respect to transportation, in respect to banking or exchange in the technical sense, and, more than all, in respect to the facilities for obtaining credit on the part of the middlemen who work the trade—this last being the great factor. For instance, there is no doubt that buyers in South America would greatly prefer to buy American cottons at their relative quality and price rather than British cottons. Why don't they do so?

Mr. Atkinson argues that long credits, which are indispensable to success in the South American trade, and which are afforded by British traders in those countries, are largely the secret of the commercial supremacy which they have attained in a region of the world that is still inviting ground for contest by American producers and sellers.

We trust our leading merchants and other business men will not miss the opportunity of being on hand to-day (at the Southern Pacific depot, we presume) to meet the members of the Commission, if but for a brief interview.

The Popular Vote.

The correct popular vote for President is not yet known in all the States, but so far as made up the case between Blaine and Cleveland stands as follows:

REPUBLICAN.		DEMOCRATIC.	
California	10,000	Alabama	50,000
Colorado	4,000	Arkansas	30,000
Illinois	26,000	Connecticut	1,000
Iowa	30,000	Delaware	4,375
Kansas	61,341	Florida	4,100
Maine	20,000	Georgia	40,000
Massachusetts	24,185	Indiana	5,000
Michigan	5,000	Kentucky	30,000
Minnesota	25,000	Louisiana	17,000
Nebraska	20,000	Maryland	6,000
Nevada	1,000	Mississippi	36,773
New Hampshire	4,000	Missouri	10,000
Ohio	31,822	New Jersey	4,000
Oregon	3,000	New York	1,076
Pennsylvania	80,230	North Carolina	25,000
Rhode Island	18,000	South Carolina	30,000
Vermont	24,000	Tennessee	12,000
Wisconsin	15,000	Texas	60,000
		Virginia	6,000
		West Virginia	1,000
Total	416,923	Total	374,324

This shows a popular vote, plurality, of 54,698 for the Republicans. In the Northern States, where the vote is cast and counted with sufficient honesty to carry with it the weight of public sentiment, Blaine has a plurality of between three and four hundred thousand over Cleveland. A glance at the list of States carried by the two parties shows also that in the States of the most importance the Republicans are in the majority. With a total vote of over a quarter of a million in New York the Democrats carry it by a little over 1000 plurality and fall short of a majority by 40,107. Their plurality is less than one vote to the thousand, while the party is a minority one in the pivotal State, as well as in the country at large.

Ohio's Vote.

The Ohio State Journal gives it as follows from the official returns:

Blaine	400,082
Cleveland	368,280
St. John	11,269
Butler	3,17

Blaine's plurality 31,793, majority 15,363. The total vote was 785,179, being only 1038 less than at the last October election, when it was 786,217. The aggregate vote for the four Presidential candidates above is 784,810.

THE Santa Rosa Republican goes to the marrow of the matter when it says: "It is very important that party harmony should prevail, and that some man be selected by the Legislature for United States Senator who will unify and harmonize, rather than disorganize and bankrupt the Republican party. A victory for to-day, or to-morrow, is a very transient victory; but a victory that lasts for years and decades is something we want. We earnestly hope that candidates will not conspire and combine forces, so that the best man for the office will be beaten. The next Legislature ought to see the situation as it is, and not fritter away time and finally select some man who will not please the party. California needs a man in the Senate who understands the wants of this coast, a man who has courage, energy and integrity; a man who is free from all combinations; a man who has the confidence of the people of both parties; a man who will build up the Republican party by serving the people of the State and Nation. The strength and the unity of the Republican party of this State, and of this coast, ought to be preserved."

MR. BLAINE was born in Pennsylvania, spent some years of his early life in Ohio and has been a resident of Maine for thirty years. He has strong attachments and many intimate acquaintances in each of these States, and is pretty well known to all the people in them. The estimate in which Mr. Blaine is held by the people of these States may be quite accurately sized up by the following comparison of the vote in each in 1880 and 1884:

	1882. Rep	Dem.	1884. Rep.
Maine	9,000	.....	95,000
Ohio	.....	19,000	33,000
Pennsylvania	.....	40,000	80,000
Net Republican gain, 127,000.			

BELVA LOCKWOOD, Esq., who received various and sundry votes for President, threatens that if they are not counted she "she will know the reason why." So you should, Belva. Every man's vote should be counted. "A free ballot and a fair count" is the true doctrine, and it's just as applicable to the case of a woman as to that of a man.

THE Louisville Courier-Journal intimates, without committing itself in words, that the incoming administration should recognize the Mugwumps in the person of Curtis, Schurz or Bristow, by a Cabinet appointment or something of the sort. Treason must have its reward.

THE Alta California is consoling itself for the Democratic defeat in this State over the slight cutting down in Blaine's majority shown by the official returns. The defeated brethren should not split hairs. It was a famous victory.

ONTARIO.

READ STORIES BY A LOS ANGELES LIAR.
Correspondence of the TIMES.

ONTARIO, SAN BERNARDINO Co., CAL., Nov. 22, 1884.—F. L. Alles, formerly editor and proprietor of the Pontiac (Ill.) Sentinel, has purchased the Rural Californian, and will reside in Los Angeles. We are sorry to lose him, as he has since purchasing and building here been quite a useful citizen. As President of the Water Company and Vice-President of the Ontario Horticultural Society we shall especially miss him. Probably, however, he may be more useful to our favored Southern California in his new sphere.

The bricklayers are at work on the new college building.

A series of five entertainments commences this week at the Ontario School house, and for the next few weeks we hope to listen with pleasure to the Smith sisters, Miss Breed, Miss Wester and Miss Bridgman, of your city. Dr. Carl Von Bonhorst, a sweet violinist from Pomona, will also do his best to charm the model settlers—and last, though not least, the Hon. E. M. Widney will take up the cudgel in favor of the true faith as against the plausible arguments of the irrepressible, erratic, but by no means logical Bob Ingersoll.

Several places have changed hands here lately. Among them that of G. W. Boggs (one of the oldest settlers—1882), who has sold at more than double its cost his 10 acres to Mr. Noble of Toronto, Canada.

G. Waddingham's new dwelling is nearing completion, and is quite an ornament to A street.

E. Drew has put in one of the best appointed furniture stocks outside of Los Angeles City.

Hunters are constantly coming and going, and the Ontario Hotel office is full of Nimrods priming their cartridges or getting off enormous bear and deer stories. One young gentleman from Los Angeles electrified his listeners by a thrilling tale last night of twenty-three bears killed in a single afternoon. With a feeling of deep compassion for the ardent youth your truthful correspondent bethought him of the time when on Mount Hamilton he skinned up a slim iron-wood tree when he heard the crackling among the bushes of a female grizzly and the squeak of her cubs. The young men of to-day are—according to their own stories—far braver than their old fogy seniors.

And all the various diseases of the Head, Throat and Chest, including EYE, EAR and HEART, successfully treated by
M. HILTON WILLIAMS, M. D.,
M. C. P. S. O.
Office at 315 North Main street, next the Diamond House, Los Angeles, California.
All diseases of the Head, Throat and Chest, viz: Catarrh, Tarcot Diseases, Asthma, Bronchitis, Consumption, Catarrhal Deafness, Catarrhal Opthalmia and Diseases of the Heart treated by his new and improved system of Medicated Inhalation, which carry the remedies directly to the diseased parts, thereby effecting cures in many of the so-called incurable cases, the greater part of whom had not the slightest idea of ever being cured.
In order to show the afflicted public how easily and quickly lung diseases can be cured by our system of practice, we append the following letter from a reverend gentleman who is known by many residents of Los Angeles and all over the Northwestern and Eastern States, and because the subject of the letter is to-day living and a stout, healthy man, and still residing in the State of Michigan.
From Rev. L. R. Fiske, D. D., President Albion College, Albion, Mich., formerly pastor Central M. E. church, Detroit, Mich., and editor of the Christian Advocate.
DETROIT, Mich., Sept. 29, 1879.
DR. WILLIAMS—*Dear Sir:* I am glad to add my testimony to that of the great success that my son has received. In the spring of 1877, my son, then at the age of 23, was suffering from a severe affection of the bronchial tubes and lungs, so as to be compelled to keep his room, and most of the time his bed. Within the space of two weeks he experienced about a dozen hemorrhages, from which the ordinary remedies afforded but temporary relief. I applied to you, who supplied him with inhaling medicines, which effected an immediate arrest of the bleeding, and which has never occurred since he began the inhalation, and which fully restored him to health.
Our Eastern friends should not depend upon climatic influences alone, for herein lies the fatal mistake. Nearly every case requires positive medication, so as to become rid of the offending matter—the consolidated portions of the lungs—so as to give nature an opportunity to heal them.
CONSULTATION FREE.
Those who desire to consult me in regard to their cases or the benefits of my treatment had better call at my office for consultation and examination, but if impossible to do so can write for a copy of my Medical Treatise, containing a list of questions. Address

Books, magazines and pamphlets bound in Turkish leather, Morocco, cloth, sheepskin, or in any style desired. Our work is guaranteed to be equal to that done in San Francisco.

LOCAL DASHES.

J. W. Browning & Co. report a very large demand for real estate at Boyle Heights.

Live hogs have declined in price to 4½ and 5 cents per pound, and dressed to 7½ and 8 cents per pound.

The red scale is reported to be ravaging the orange orchard at Sierra Madre Villa. No presentiments seem to be taken against its spread.

The Episcopalians will hereafter hold a service at 2 p. m. in East Los Angeles. It is the intention to build a church there as soon as possible.

Ninety men are at work in the bed of the Los Angeles river, digging out a channel. No levee will be built this year, as the appropriation is not large enough.

Prof. Hinton will visit the schools of San Fernando, Newhall and Elizabeth Lake this week. He will probably establish a school at Lancaster, Antelope Valley.

Messrs. Warner and Crosby expect to run two excursions a month in the future. Mr. Clarence Warner left for the East yesterday via San Francisco and the central route.

After January first the morgue will be removed to the undertaking establishment of Albert Brown. Mr. Brown will fit up a portion of the building especially for the morgue.

On the principle that the early Democrats birds will catch the worms, Messrs. J. J. Mellus and F. E. Adams are out with petitions, the first for the Deputy Revenue Collectorship and the other for the office of Port Collector of Wilmington.

There is a large demand for sulphur in this county to use on vineyards, and the wholesale price is steady at three cents per pound. There seems to be an excellent opportunity to work up the great sulphur deposits of Southern California.

E. Thornberg, of Newhall, had on exhibition yesterday some coarse flake gold taken from Placerita Canyon, two miles above Newhall, by the Cinderella Mining Company. The claim averages ten cents to the pan and is likely to prove quite a bonanza.

County School Superintendent Hinton returned yesterday from Pomona. He reports that three schoolhouses aggregating in value $10,000 have just been built in the settlement. Under the efficient management of Prof. Brown the schools of Pomona are prosperous.

County Clerk Potts has invited County Clerk-elect Dunsmoor and his chief deputy Hamilton to make their headquarters at his office and thoroughly train themselves for their coming duties. With his usual generosity Mr. Potts has offered to aid them all in his power.

Ex. J. Banbury, of Pasadena, stated to a reporter of the TIMES yesterday that the firm Raymond has settled all the indebtedness about the site and building material of the Raymond Hotel, and as soon as the San Gabriel railroad shall show some sign of life, building will be resumed.

The TIMES has received cards of thanks from the managers of the Protestant Orphan Asylum and the Sisters of Charity in behalf of the Catholic Orphan Asylum, thanking Messrs. Nittinger and McMenomy, and the other gentlemen who made the collections, for their generous efforts, which resulted in a donation of $177.68 to each asylum.

Two years ago a gentleman in this city bought 160 acres of brush land at Azusa, paying therefor $300. He expended $250 in improvements, making the total sum $550. Last Saturday he sold the whole property for $4,500, clearing $3,950 cash unless taxes and interest on the investment. The purchaser will probably find the land worth $1,000 an acre within a few years.

R. J. T. Richardson informs the TIMES that the arrangements for the great Scottish colony at Ravenna, in the northern portion of this county, have been completed and the members, some fifteen hundred in number, will arrive next year. They will devote their attention to farming, and a colony site has already been purchased. These people will probably expend $200,000 in Los Angeles in the purchase of supplies.

One of the most interesting social events of the week was the reception tendered to the senior class of the Normal school by their esteemed principal, Prof. Ira More, Nov. 21, 1884. The evening was most thoroughly enjoyed by all, and it will never be forgotten by any member of the class of '84. Those present were the following: Mrs. More, Wells, Platt, Valentine; Misses Hawks, Monks, Ross, Knapp, Desmond, Rorick, Lazard, Kinney, Carver, Fleishman, Cowan, Wiley, Dryden, Jessup, Stuart, and McDonnell; Messrs. More, Platt, Donior, Wight, and Ira More, Jr.
